CAREER OBJECTIVE

Tech-savvy AI Software Engineer and Web Developer with strong communication skills and hands-on customer service experience. Skilled in blending technical expertise with end-user empathy to deliver high-quality digital products and support. Looking to join a forward-thinking company where I can contribute to both tech development and user success.

SKILLS

- Effective Problem Solver.
 - Ability to multi-task and prioritise tasks accordingly
 - Effective Analytical Thinking & Decision Making
 - Effective Communicator
 - Ability to work within a team
 - Strong Australian work ethic
 - Punctual, reliable, honest, and fast learner
-

PROJECTS

❖ [Hotel Hera Lodge Website](#)

Objective: Designed and developed a fully responsive and user-friendly website for Hotel Hera Lodge, enhancing its online presence and user experience. Also created a custom logo and banner to align with the brand identity.

Tools: HTML, CSS, JavaScript, WordPress, Photoshop, Illustrator, Figma

Outcome: Delivered a sleek, functional, and visually appealing website that improves accessibility and engagement for potential guests.

❖ [Brainwave with React on Vite](#)

Objective: To highlight my frontend, react skills and to focus on delivering a clean, modern, and engaging user interface.

Tools: HTML, CSS, ReactJs, Git, GitHub

Outcome: This project is a testament to my dedication to continuous learning and development. It's a stepping stone towards more complex and feature-rich applications in the future.

❖ [Modern UI/UX GPT-3 Website – Frontend](#)

Objective: To highlight my foundational-React skills and to focus on delivering a clean, modern, and engaging user interface.

Tools: HTML, CSS, ReactJs, Git, GitHub

Outcome: The project challenges provided valuable learning experiences, strengthening my problem-solving skills and deepening my understanding of React.js components, props, State, and modern web development practices.

❖ College Capstone Project A & B

Objective: To Design an Online Bakery System Website for a Restaurant

Tools: HTML, CSS, JavaScript, PHP, MySQL Database, XAMPP Server

Outcome: Successful completion of the website and achieved **Higher Distinction**.
